

LEWIS & CLARK LAKE BY SPRINGFIELD

Lewis & Clark Lake Stakeholder Meeting

* Continue the discussion about Section 1179(a) of WRDA 2016 which directs the US Army Corps of Engineers to carry out a pilot program for the development & implementation of **sediment management plans for reservoirs** under the jurisdiction of the Secretary in the Upper Missouri River Basin, including the Missouri River watershed above Sioux City, Iowa.

Friday, Sept. 21, 2018

10 am to 12 pm

Ponca Tribe of Nebraska Headquarters

2523 Woodbine Street, Niobrara, Nebraska

For planning purposes (handouts, seating), please let us know if you will be attending. Meeting is open to the public.

RSVP to msaconline@gmail.com or visit

www.msaonline.com or call 605-661-1594

Thank you to the Ponca Tribe of Nebraska for hosting the meeting in Niobrara.

On the agenda:

- Paul Boyd, US Army Corps of Engineers hydraulic engineer—Omaha District, will discuss Section 1179a and update attendees on current/recent sedimentation research at L&C Lake
- Brad Thompson, USACE/ Planning—Omaha District, will discuss cost share agreements

MSAC invites the general public & other stakeholders to participate. Development cost of the plan to be split 50 percent federal and 50 percent non-federal. A sediment management plan is a key step toward sustainability.
